

G.L. Cornell Company

Winter Service Specials

Prepare your equipment for the 2010 season by having our factory-trained technicians thoroughly service and clean your equipment fleet.

We use OEM parts and guarantee our work.

Schedule your work before December 21, 2009 and receive a 10% discount on parts and labor.

Free Pick Up and Delivery for service orders of 3 or more pieces of equipment (walking greens mowers = 6 pieces or more).

Additional discounts for multi-unit service contracts.

We can also service:

ALL Hustler Zero Turn Mowers

ALL Smithco Rakes, Sweepers, Rollers, and Sprayers

ALL Club Car Utility Vehicles

ALL Verti-Drain and Redexim aerators, seeders, etc.

ALL Turfco Top Dressers and Seeders

ALL Ryan Aerators

◆ Call about our special sharpening rates for all brands of reel mowers ◆

To schedule your appointment or for further information, please contact:

We look forward to serving you ! Thank you for your business !

Jacobsen HR-5111 and R-311 Rotary

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Replace cutting blades and clean underside of decks
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

HR-5111 (all Models) \$ 945.00
R-311 (all Models) \$ 945.00

Jacobsen HR-9016 Rotary

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Replace cutting blades and clean underside of decks
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

HR-9016 (all models) \$ 1,495.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 495.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 300.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 495.00

Jacobsen SLF-1880 Fairway Mower

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Spin Grind all reels
- Replace bedknives, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Inspect all belts
- Test all gauges and overheat system
- Check all fluid levels and top off
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

SLF-1880 (all Models) \$ 1,495.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 495.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 300.00

Jacobsen LF-3400 & LF-3800 Fairway Mower

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Spin Grind all reels
- Replace bedknives, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Inspect all belts
- Test all gauges and overheat system
- Check all fluid levels and top off
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

LF-3400 (all models) \$ 1,495.00
LF-3800 (all models) \$ 1,625.00
LF-4675 (all 7 Gang models) \$ 1,745.00
LF-4677 (all 7 Gang models) \$ 1,885.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 495.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 300.00

Run Time Report – full report provided on total equipment hours; cutting hours; high temp operation; fluid level history; number of up/down cycles \$ 49.00
 (Available on mowers with Marlin Controllers)

Jacobsen AR-5 and AR-522 Rotary

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Replace cutting blades and clean underside of decks
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

AR-5 (all Models) \$ 1,095.00
AR-522 (all Models) \$ 1,095.00

Jacobsen AR-3 Rotary

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Clean hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect wet brake operation
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Replace cutting blades and clean underside of decks
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

AR-3 (all models) \$ 820.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 495.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 300.00

Run Time Report – full report provided on total equipment hours; cutting hours; high temp operation; fluid level history; number of deck lift / lower cycles..... \$ 49.00
 (Available on mowers with Marlin Controllers)

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 395.00

Jacobsen Green King IV Greens Mower

- Change engine oil and filter
- Change air filter
- Install new spark plugs (Gas model)
- Change fuel filter(s)
- Change hydraulic filter(s)
- Spin Grind all reels
- Replace bedknives, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system (Diesel model)
- Test fuel solenoid operation, lube and adjust linkage (Diesel model)
- Clean radiator and oil cooler (Diesel model)
- Flush radiator and refill with new coolant (Diesel model)
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Inspect all belts
- Test all gauges and overheat system
- Check all fluid levels and top off
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

Greens King IV (all Models) \$ 935.00

Jacobsen G-Plex III Greens Mower

- Change engine oil and filter
- Change air filter
- Install new spark plugs (Gas model)
- Change fuel filter(s)
- Change hydraulic filter(s)
- Spin Grind all reels
- Replace bedknives, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system (Diesel model)
- Test fuel solenoid operation, lube and adjust linkage (Diesel model)
- Clean radiator and oil cooler (Diesel model)
- Flush radiator and refill with new coolant (Diesel model)
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Inspect all belts
- Test all gauges and overheat system
- Check all fluid levels and top off
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

G-Plex III (all models) \$ 935.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 325.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 250.00 (Diesel models only)

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 325.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 250.00 (Diesel models only)

Jacobsen Putting Green Mowers (ALL)

- Change engine oil
- Change air filter
- Install new spark plug
- Adjust all cables and controls
- Spin Grind reel
- Replace bedknife, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test charging system
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all belts and roller chains
- Grease reel drive case
- Lubricate drive rollers and differential
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

PGM's (all Models) \$ 485.00

Jacobsen Tri-King 1900-D Triplex

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Spin Grind all reels
- Replace bedknives, sharpen, adjust HOC
- Inspect and lube roller bearings
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Inspect all belts
- Test all gauges and overheat system
- Check all fluid levels and top off
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

Tri-King 1900-D (all Models) \$ 1,145.00

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine's hydraulic system flow rate against original (new) flow rate specifications..... \$ 295.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 225.00 (Diesel models only)

Cushman Turf Trucks (ALL)

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system (Diesel model)
- Test fuel solenoid operation, lube and adjust linkage (Diesel model)
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect clutch linkage
- Drain and replace transmission fluid
- Drain and replace differential oil
- Inspect and adjust manual shifter linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

Cushman Truck (all models) \$ 655.00

Cushman Spraytek Vehicles

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system (Diesel model)
- Test fuel solenoid operation, lube and adjust linkage (Diesel model)
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect clutch linkage
- Drain and replace transmission fluid
- Drain and replace differential oil
- Inspect and adjust manual shifter linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Replace in-line spray filter
- Check sprayer hoses for leaks or cracking
- Check pump clutch operation
- Lubricate spray boom pivot points
- Winterize spray system
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

Cushman DS-175 Spraytek \$ 990.00

Cushman DS-300 Spraytek \$ 990.00

Prevent Damage to Your Cushman Engine !!

Have us replace the engine Timing Belt on your Cushman Truck or Spraytek DS-175 at the 1500-hour interval to avoid damage to the engine (Suzuki gas models only)..... \$ 365.00
(Parts and labor included)

Jacobsen 600 Series Turfcut Rotary

- Change engine oil and filter
- Change air filter
- Change fuel filter(s)
- Change hydraulic filter(s)
- Test battery and charging system
- Clean battery terminals and cable ends
- Test glow plug system
- Test fuel solenoid operation, lube and adjust linkage
- Clean radiator and oil cooler (in the machine)
- Flush radiator and refill with new coolant
- Inspect and adjust hydro linkage
- Inspect brakes, brake linkage, and adjust as needed
- Inspect all hydraulic hoses for leaks and wear or cracking
- Test all gauges and overheat system
- Replace cutting blades and clean underside of decks
- Check all fluid levels and top off
- Inspect all belts
- Lubricate all grease fittings
- Pressure wash entire machine
- Test operation of unit
- Verify all warranty repairs are completed

Turfcut (All Models) \$ 765.00

Our Service Department is qualified to assist you in many ways!

- Reel and bedknife sharpening
- Pressure washing
- Wash and wax
- Hydraulic flow testing
- Hydraulic rebuild
- Tire replacement
- Welding (all metals)
- Seat replacement
- ROPS installation
- Reel replacement / rebuild
- Engine compression testing
- Diesel injector testing
- Electrical system testing
- Radiator cleaning / replacement
- Canopy installation
- Installation of lights
- Fuel tank cleaning
- Hydraulic tank cleaning
- Engine and hydraulic oil analysis
- Gas and diesel fuel analysis
- PTO shaft rebuild
- Bushing replacement
- Safety switch replacement and repair (OSHA mandated)
- Safety shield replacement
- Preventive maintenance classes
- Operator training classes

If you have a special request, please contact us for assistance!

Hydraulic Flow Test – complete hydraulic system flow test. We compare your machine’s hydraulic system flow rate against original (new) flow rate specifications..... \$ 325.00

Radiator Cleaning (out of machine) – we remove the radiator from the machine, thoroughly clean the radiator fins and reinstall..... \$ 225.00
(Diesel models only)
